

Assignment 4: Build Your Portfolio Website

Objective:

Create a personal portfolio using React Router.

Requirements:

1. Create Pages:

1. Home Page

Include:

- About Me
- Research Interests
- Personal Details
- Profile Picture

2. Projects Page

- Display your projects
- Link each project to your GitHub repository

2. Navigation:

- Use `NavLink` for routing between pages

3. Personal Details:

Include the following:

- Name
- Phone Number
- Email ID (Personal & College Email)
- Skills
- At least **2 projects**

4. Styling:

- Apply CSS to make your portfolio visually appealing

5. Deployment:

- Deploy your project using GitHub Pages
-

GitHub Deployment Steps:

Create Repo

- Open GitHub
- Click **New Repository**
- Name: portfolio
- Click **Create**

Step 1: Open Terminal in Project Folder Push Project to GitHub

```
git init
git add .
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/your-username/portfolio.git
git push -u origin main
```

(after this gets executed -check whether your code is in the github)

Step 2: Install gh-pages

```
npm install gh-pages --save-dev
```

Step 3: Update package.json

Add:

```
"homepage": "https://your-username.github.io/portfolio"
```

Add scripts:

```
"predeploy": "npm run build",
```

```
"deploy": "gh-pages -d build"
```

Step 4: Use HashRouter

Replace:

```
BrowserRouter
```

with:

```
HashRouter
```

Step 5: Deploy

```
npm run deploy
```

Step 6: Enable GitHub Pages

- Go to **Repository** → **Settings** → **Pages**
 - Select branch: `gh-pages`
-

Submission:

- GitHub Repository Link
 - Live Website Link
(Example: <https://yourname.github.io/portfolio>)
-

Deadline:

22/04/2026 (Wednesday) before 11:50 PM

Important Notes:

- Your repository must be **public**
- Ensure all links are working before submission
- This portfolio will be useful for your future internships and placements
